Location Description

v2.5

INPATIENT LOCATIONS

Inpatient Adult Critical Care

Burn Critical Care	IN:ACUTE:CC:B	Critical care area for the care of patients with significant/major burns.
Medical Cardiac Critical Care	IN:ACUTE:CC:C	Critical care area for the care of patients with serious heart problems that do not require heart surgery.
Medical Critical Care	IN:ACUTE:CC:M	Critical care area for the care of patients who are being treated for nonsurgical conditions.
Medical/Surgical Critical Care	IN:ACUTE:CC:MS	Critical care area for the care of patients with medical and/or surgical conditions.
Neurologic Critical Care	IN:ACUTE:CC:N	Critical care area for the care of patients with life-threatening neurologic diseases.
Neurosurgical Critical Care	IN:ACUTE:CC:NS	Critical care area for the surgical management of patients with severe neurologic diseases or those at risk for neurologic injury as a result of surgery.
Prenatal Critical Care	IN:ACUTE:CC:PNATL	Critical care area for the care of pregnant patients with complex medical or obstetric problems requiring a high level of care to prevent the loss of the fetus and to protect the life of the mother.

Respiratory Critical Care	IN:ACUTE:CC:R	Critical care area for the evaluation and treatment of patients with severe respiratory conditions.
Surgical Cardiothoracic Critical Care	IN:ACUTE:CC:CT	Critical care area for the care of patients following cardiac and/or thoracic surgery.
Surgical Critical Care	IN:ACUTE:CC:S	Critical care area for the evaluation and management of patients with serious illness before and/or after surgery.
Trauma Critical Care	IN:ACUTE:CC:T	Critical care area for the care of patients who require a high level of monitoring and/or intervention following trauma or during critical illness related to trauma.
Neonatal Units		
Inpatient Well Baby Nursery (Level I)	IN:ACUTE:WARD:NURS	Area for normal newborns with no identified health problems.
Neonatal Critical Care(Level II/III)	IN:ACUTE:CC_STEP:NURS	Combined nursery housing both Level II and III newborns and infants
Neonatal Critical Care (Level III)	IN:ACUTE:CC:NURS	Critical care area for the care of newborns and infants with serious illness requiring Level III care; area is supervised by a neonatologist.

Step down Neonatal ICU (Level II)

IN:ACUTE:STEP:NURS

Area for newborns and infants who are not critically ill but who may remain in the nursery for extended observation or to increase weight.

Pediatric Critical Care

Pediatric Burn Critical Care

IN:ACUTE:CC:B_PED

Critical care area for the care of patients ≤ 18 years old with significant/major burns.

Pediatric Cardiothoracic Critical Care

IN:ACUTE:CC:CT_PED

Critical care area for the care of patients ≤ 18 years old following cardiac and thoracic surgery.

Pediatric Medical Critical Care

IN:ACUTE:CC:M_PED

Critical care area for the care of patients ≤ 18 years old who are being treated for nonsurgical conditions.

Pediatric Medical/Surgical Critical Care

IN:ACUTE:CC:MS_PED

Critical care area for the care of patients ≤ 18 years old with medical and/or surgical conditions.

Pediatric Neurosurgical Critical Care

IN:ACUTE:CC:NS_PED

Critical care area for the surgical management of patients ≤ 18 years old with severe neurologic diseases or those at risk for neurologic injury as a result of surgery.

Pediatric Respiratory Critical Care

IN:ACUTE:CC:R_PED

Critical care area for the evaluation and treatment of patients ≤ 18 years old with severe respiratory conditions.

Pediatric Surgical Critical Care	IN:ACUTE:CC:S_PED	Critical care area for the evaluation and management of patients ≤ 18 years old with serious illness before and/or after surgery.
Pediatric Trauma Critical Care	IN:ACUTE:CC:T_PED	Critical care area for the care of patients ≤ 18 years old who require a high level of monitoring and/or intervention following trauma or during critical illness related to trauma.
Specialty Care Areas (SCA)		
Bone Marrow Transplant SCA	IN:ACUTE:SCA:BMT	Specialty care area for the care of patients who undergo bone marrow (stem cell) transplant for the treatment of various disorders.
Hematology/Oncology SCA	IN:ACUTE:SCA:HONC	Specialty care area for the evaluation and treatment of patients with cancer and/or blood disorders.
Inpatient Acute Dialysis SCA	IN:ACUTE:SCA:DIAL	Specialty care area for the care of patients who require acute dialysis as a temporary measure.
Long-Term Acute Care (LTAC)	IN:ACUTE:SCA:LTAC	Area that provides acute care services to patients suffering medically complex conditions, or patients who have suffered recent catastrophic illness or injury and require an extended stay in an acute care environment.

Pediatric Bone Marrow Transplant SCA	IN:ACUTE:SCA:BMT_PED	Specialty care area for the care of patients ≤ 18 years old who undergo bone marrow (stem cell) transplant for the treatment of various disorders.
Pediatric Dialysis SCA	IN:ACUTE:SCA:DIAL_PED	Specialty care area for the care of patients ≤ 18 years old who require acute dialysis as a temporary measure.
Pediatric Hematology/Oncology SCA	IN:ACUTE:SCA:HONC_PED	Specialty care area for the evaluation and treatment of patients ≤ 18 years old with cancer and/or blood disorders.
Pediatric Solid Organ Transplant SCA	IN:ACUTE:SCA:SOTP_PED	Specialty care area for the postoperative care of patients ≤ 18 years old who have had a solid organ transplant (e.g., heart/lung, kidney, liver, pancreas).
Solid Organ Transplant SCA	IN:ACUTE:SCA:SOTP	Specialty care area for the postoperative care of patients who have had a solid organ transplant (e.g., heart/lung, kidney, liver, pancreas).

Inpatient Adult Wards

Inpatient Behavioral Health/Psych Ward	IN:ACUTE:WARD:BHV	Area for the evaluation and treatment of patients with acute psychiatric or behavioral disorders.
Inpatient Burn Ward	IN:ACUTE:WARD:B	Area for the evaluation and treatment of patients who have burns.

Inpatient Ear/Nose/Throat Ward	IN:ACUTE:WARD:ENT	Area for the evaluation, treatment, or surgery of patients with ear, nose, or throat disorders.
Inpatient Gastrointestinal Ward	IN:ACUTE:WARD:GI	Area for the evaluation, treatment, or surgery of patients with disorders of the gastrointestinal tract.
Inpatient Genitourinary Ward	IN:ACUTE:WARD:GU	Area for the evaluation, treatment, or surgery of patients with disorders of the genitourinary system.
Inpatient Gerontology Ward	IN:ACUTE:WARD:GNT	Area for the evaluation, treatment, or surgery of patients with age-related diseases.
Inpatient Gynecology Ward	IN:ACUTE:WARD:GYN	Area for the evaluation, treatment, or surgery of female patients with reproductive tract disorders.
Inpatient Jail Unit	IN:ACUTE:WARD:JAL	Overnight stay patient care area of a hospital or correctional facility used only for those who are in custody of law enforcement during their treatment.
Inpatient School Infirmary	IN:ACUTE:WARD:IFM	Overnight stay patient care area of a school infirmary or health center (e.g., private residential school or college campus).
Labor and Delivery Ward	IN:ACUTE:WARD:LD	Area where women labor and give birth.
Labor, Delivery, Recovery, Postpartum Suite (LDRP)	IN:ACUTE:WARD:LD_PP	Suite used for labor, delivery, recovery and postpartum care -- all within the same suite.

Inpatient Medical Ward	IN:ACUTE:WARD:M	Area for the evaluation and treatment of patients with medical conditions or disorders.
Inpatient Medical/Surgical Ward	IN:ACUTE:WARD:MS	Area for the evaluation of patients with medical and/or surgical conditions.
Inpatient Neurology Ward	IN:ACUTE:WARD:N	Area for the evaluation and treatment of patients with neurologic disorders.
Inpatient Neurosurgical Ward	IN:ACUTE:WARD:NS	Area for the care of patients whose primary reason for admission is to have neurosurgery or to be cared for by a neurosurgeon after head or spinal trauma.
Inpatient Ophthalmology Ward	IN:ACUTE:WARD:OPH	Area for the care of patients whose primary reason for admission is to have eye surgery or to be cared for by an ophthalmologist after eye trauma.
Inpatient Orthopedic Ward	IN:ACUTE:WARD:ORT	Area for the evaluation, treatment, or surgery on bones, joints, and associated structures by an orthopedist.
Inpatient Orthopedic Trauma Ward	IN:ACUTE:WARD:T_ORT	Area for the evaluation and treatment of patients with orthopedic injuries or disorders.
Inpatient Plastic Surgery Ward	IN:ACUTE:WARD:PLS	Area for the care of patients who have reconstructive surgery performed by a plastic surgeon.

Inpatient Postpartum Ward	IN:ACUTE:WARD:PP	Area for the care of patients recovering from childbirth.
Inpatient Pulmonary Ward	IN:ACUTE:WARD:PULM	Area for the evaluation and treatment of patients with respiratory system conditions or disorders.
Inpatient Rehabilitation Ward	IN:ACUTE:WARD:REHAB	Area for the evaluation and restoration of function to patients who have lost function due to acute or chronic pain, musculoskeletal problems, stroke, or catastrophic events resulting in complete or partial paralysis.
Acute Stroke Ward	IN:ACUTE:WARD:STRK	Area for the evaluation, stabilization, and treatment of patients who have experienced an acute stroke.
Inpatient Surgical Ward	IN:ACUTE:WARD:S	Area for the evaluation and treatment of patients who have undergone a surgical procedure.
Inpatient Vascular Surgery Ward	IN:ACUTE:WARD:VS	Area for the evaluation and treatment of patients who have undergone vascular surgery.

Pediatric Wards

Inpatient Adolescent Behavioral Health Ward	IN:ACUTE:WARD:BHV_ADOL	Area for the evaluation and treatment of patients 13-18 years old with acute psychiatric or behavioral disorders.
---	------------------------	---

Inpatient Medical Pediatric Ward	IN:ACUTE:WARD:M_PED	Area for the evaluation and treatment of patients ≤ 18 years of old with medical conditions or disorders.
Inpatient Pediatric Behavioral Health Ward	IN:ACUTE:WARD:BHV_PED	Area for the evaluation and treatment of patients ≤ 18 years old with acute psychiatric or behavioral disorders.
Inpatient Pediatric Burn Ward	IN:ACUTE:WARD:B_PED	Area for the evaluation and treatment of patients ≤ 18 years old who have tissue injury caused by burns.
Inpatient Pediatric Ear, Nose, Throat Ward	IN:ACUTE:WARD:ENT_PED	Area for the evaluation and treatment of patients ≤ 18 years old with disorders of the ear, nose, and/or throat.
Inpatient Pediatric Genitourinary Ward	IN:ACUTE:WARD:GU_PED	Area for the evaluation and treatment of patients ≤ 18 years old with disorders of the genitourinary system.
Inpatient Pediatric Med/Surg Ward	IN:ACUTE:WARD:MS_PED	Area for the evaluation and treatment of patients ≤ 18 years old with medical and/or surgical conditions.
Inpatient Pediatric Neurology Ward	IN:ACUTE:WARD:N_PED	Area for the evaluation and treatment of patients ≤ 18 years old with neurologic disorders.
Inpatient Pediatric Neurosurgical Ward	IN:ACUTE:WARD:NS_PED	Area for care of patients ≤ 18 years old whose primary reason for admission is to have neurosurgery or to be cared for by a neurosurgeon after head or spinal trauma.

Inpatient Pediatric Orthopedic Ward	IN:ACUTE:WARD:ORT_PED	Area for the evaluation and treatment of patients ≤ 18 years old with orthopedic injuries or disorders.
Inpatient Pediatric Rehabilitation Ward	IN:ACUTE:WARD:REHAB_PED	Area for the evaluation and restoration of function to patients ≤ 18 years old who have lost function due to acute or chronic pain, musculoskeletal problems, stroke, or catastrophic events resulting in complete or partial paralysis.
Inpatient Pediatric Surgical Ward	IN:ACUTE:WARD:S_PED	Area for the evaluation and treatment of patients ≤ 18 years old who have undergone a surgical procedure.

Step Down Units

Adult Step Down Unit (post-critical care)	IN:ACUTE:STEP	Area for adult patients who are hemodynamically stable and can benefit from close supervision and monitoring, such as frequent pulmonary toilet, vital signs, and/or neurologic and neurovascular checks.
Pediatric Step Down Unit (post-critical care)	IN:ACUTE:STEP:PED	Area for patients ≤ 18 years old who are hemodynamically stable and can benefit from close supervision and monitoring, such as frequent pulmonary toilet, vital signs, and/or neurologic and neurovascular checks.

Operating Rooms

Cardiac Catheterization Room/Suite	IN:ACUTE:OR:CATH	A room or rooms in a hospital equipped for the performance of heart catheterizations for diagnostic or therapeutic purposes. Operating Room requirements for air changes, temperature, humidity, and surfaces must be met.
Cesarean Section Room/Suite	IN:ACUTE:OR:LD	A room or suite in a hospital equipped for the performance of obstetric and gynecologic surgeries and for the care of the neonate immediately after birth. Operating Room requirements for air changes, temperature, humidity, and surfaces must be met.
Inpatient Operating Room/Suite	IN:ACUTE:OR	A room or suite in a hospital equipped for the performance of surgical operations. Requirements for air changes, temperature, humidity, and surfaces must be met.
Post-Anesthesia Care Unit/Recovery Room	IN:ACUTE:OR_STEP	Area designated for monitoring patients for immediate effects of anesthesia before either going home or on to an in-patient care area.

Antimicrobial Use and Resistance (AUR) Documentation Only

All Inpatient Areas (not ICU or SCA) combined	IN:ACUTE:WARD	An aggregate of all inpatient care areas, excluding critical care, specialty care, and outpatient areas. This location is used for the purpose of reporting microbiology and pharmacy data as part of the AUR option only.
All Outpatient Areas	OUT	An aggregate of all outpatient areas used for the purpose of reporting microbiology data as part of the AUR Option only.
Miscellaneous Areas		
Optional hospital-wide summary location/all inpatient beds	IN:ACUTE	A location which represents all inpatient beds. It is used for reporting optional hospital-wide summary data (e.g., CLA-BSI rate for facility).
Pulmonary Function Testing	OUT:NONACUTE:DIAG:PULM	Area where the evaluation of a patient's respiratory status takes place.
Soiled Utility Area	IN:NA:SUPPORT:TRASH	Area where used and/or soiled disposable or durable medical equipment is stored and/or cleaned in preparation for disposal or reprocessing/reuse.
Sleep Studies (for in- and outpatients)	IN:NONACUTE:CLINIC:SLEEP	Area where patients stay overnight and are evaluated for sleep disorders.

Transport Service

OUT:NONACUTE:MOBILE

Mobile unit used to transport patients to their home or from one healthcare setting to another non-emergently.

Long Term Care

Inpatient Hospice

IN:NONACUTE:LTC:HSP

Area where pallative care is provided to the dying patient.

Long-Term Care Alzheimer's Unit

IN:NONACUTE:LTC:ALZ

Area where care is provided to persons diagnosed with Alzheimer's syndrome for extended periods of time.

Long-Term Care Behavioral Health/Psych Unit

IN:NONACUTE:LTC:BHV

Area where care is provided to patients with psychiatric or behavioral-disorder diagnoses for extended periods of time.

Long-Term Care Rehabilitation Unit

IN:NONACUTE:LTC:REHAB

Area where evaluation and restoration of function is provided to patients who have lost function due to acute or chronic pain, musculoskeletal problems, stroke, or catastrophic events resulting in complete or partial paralysis.

Long-Term Care Unit

IN:NONACUTE:LTC

Area where care is provided for persons with chronic disease or disabilities for extended periods of time.

Ventilator Dependent Unit

IN:NONACUTE:LTC:R

Area where care is provided to patients whose respirations depend on the use of a ventilator for extended periods of time.

OUTPATIENT LOCATIONS

Acute Care

24-Hour Observation Area	OUT:ACUTE:WARD	Area where patients are monitored for suspected or non-life-threatening conditions for 24 hours or less.
Ambulatory Surgery Center	OUT:ACUTE:OR	Area that is equipped for the performance of surgical operations; may be free-standing or part of a hospital. Operating Room requirements for air changes, temperature, humidity, and surfaces must be met. Patients do not stay overnight.
Mobile Emergency Services/EMS	OUT:ACUTE:MOBILE:UE	Mobile unit that provides clinical and emergency medical services to patients who require them in the pre-hospital setting.
Outpatient Emergency Department	OUT:ACUTE:ED	Area that provides emergency medical services; top priority is given to those with life-threatening illness or injury.
Outpatient Pediatric Surgery Center	OUT:ACUTE:OR:PED	Area that is equipped for the performance of surgical operations for persons ≤ 18 years old; may be free-standing or part of a hospital. Operating Room requirements for air changes, temperature, humidity, and surfaces must be met. Patients do not stay overnight.

Outpatient Plastic Surgery Center	OUT:ACUTE:OR:PLS	Area that is equipped for the performance of plastic surgery operations; may be free-standing or part of a hospital. Operating Room requirements for air changes, temperature, humidity, and surfaces must be met. Patients do not stay overnight.
Outpatient Surgery Recovery Room/Post-Anesthesia Care Unit	OUT:ACUTE:OR_STEP	Area designated for monitoring patients for the immediate effects of anesthesia before being sent home.
Pediatric Emergency Department	OUT:ACUTE:ED:PED	Area that provides emergency medical services to patients ≤ 18 years old; top priority is given to those with life-threatening illness or injury.
Urgent Care Center	OUT:ACUTE:CLINIC:UE	Area that provides medical care services for illnesses and injuries that are not life-threatening.
Clinic (Nonacute) Settings		
Allergy Clinic	OUT:NONACUTE:CLINIC:ALRG	An outpatient setting for the purpose of providing services to patients with allergies.
Behavioral Health Clinic	OUT:NONACUTE:CLINIC:BHV	An outpatient setting for the purpose of providing services to patients with psychiatric or behavior disorders.

Blood Collection Center

OUT:NONACUTE:CLINIC:BLOOD

An outpatient setting where blood is collected from donors. This does not include donation centers temporarily set up in non-clinical settings (e.g., schools, churches) or mobile blood collection centers.

Cardiac Rehabilitation Center

OUT:NONACUTE:CLINIC:C_REHAB

An outpatient setting where patients with cardiac disease, in partnership with a multidisciplinary team of health professionals, are encouraged and supported to achieve and maintain optimal physical health through exercise and nutritional and psychological counseling.

Cardiology Clinic

OUT:NONACUTE:CLINIC:C

An outpatient setting for the evaluation and treatment of patients with cardiac problems.

Continence Clinic

OUT:NONACUTE:CLINIC:CON

An outpatient setting for the evaluation and treatment of patients with incontinence problems.

Dermatology Clinic

OUT:NONACUTE:CLINIC:DERM

An outpatient setting for the evaluation and treatment of patients with dermatologic conditions by a dermatologist.

Diabetes/Endocrinology Clinic

OUT:NONACUTE:CLINIC:DIAB

An outpatient setting for the evaluation, education, and treatment of persons with diabetes.

Ear, Nose, Throat Clinic	OUT:NONACUTE:CLINIC:ENT	An outpatient setting for the evaluation and treatment of conditions related to the ear, nose, and/or throat.
Endoscopy Suite	OUT:NONACUTE:DIAG:GI	An area where endoscopic procedures (e.g., upper gastrointestinal, lower gastrointestinal endoscopies, bronchoscopy) are performed on outpatients and/or inpatients. Patient care and processing of equipment may take place in this location.
Family Medicine Clinic	OUT:NONACUTE:CLINIC:FAM	An outpatient setting for patients who are managed by a family practice physician or group of physicians. Does not include private physician practice.
Genetics Clinic	OUT:NONACUTE:CLINIC:GEN	An outpatient setting for testing and counseling of patients with genetic or hereditary disorders.
Gynecology Clinic	OUT:NONACUTE:CLINIC:GYN	An outpatient setting for the evaluation and treatment of women with reproductive tract conditions.
Holistic Medicine Center	OUT:NONACUTE:CLINIC:HOL	An outpatient setting where alternative healthcare practices are used, focusing on the physical, mental, emotional, social, and spiritual aspects of health.
Hyperbaric Oxygen Center	OUT:NONACUTE:CLINIC:HBO	An outpatient setting where therapeutic hyperbaric oxygen is administered.

Infusion Center	OUT:NONACUTE:CLINIC:FUS	An outpatient setting for the administration of fluids, blood products, and medications.
Mobile Blood Collection center	OUT:NONACUTE:MOBILE:BLOOD	A self-contained mobile unit such as a bus or trailer that is specifically designed and equipped for the collection of blood and blood products from public donors. This unit typically moves from location to location.
Mobile MRI/CT	OUT:NONACUTE:MOBILE_DIAG:RAD	A self-contained mobile unit such as a bus or trailer that is equipped with MRI or CT radiologic equipment and that may be moved between healthcare locations (e.g., hospitals, clinics).
Neurology Clinic	OUT:NONACUTE:CLINIC:N	An outpatient setting for the diagnosis, evaluation, and treatment of persons with neurologic disorders.
Occupational Health Clinic	OUT:NONACUTE:CLINIC:OCC	An outpatient setting where workplace physicals, workplace injury management, and immunologic evaluations take place.
Occupational Therapy Clinic	OUT:NONACUTE:CLINIC:OT_REHAB	An outpatient setting where persons with injury or disability are helped to resume activities of daily living with exercise, massage, and other therapies.

Ophthalmology Clinic	OUT:NONACUTE:CLINIC:OPH	An outpatient setting for the diagnosis, evaluation and treatment of ophthalmologic disorders.
Orthopedic Clinic	OUT:NONACUTE:CLINIC:ORT	An outpatient setting for the diagnosis, evaluation, and treatment of orthopedic disorders.
Ostomy Clinic	OUT:NONACUTE:CLINIC:OST	An outpatient setting for the management of persons who have had surgical procedure for removing normal bodily wastes through a surgical opening (stoma) on the abdominal wall.
Outpatient Dental Clinic	OUT:NONACUTE:CLINIC:DENT	An outpatient setting that provides dental services, including preventive teeth cleaning, emergency treatment, and comprehensive oral care. This may be a private or group practice or a teaching facility for dentists and/or dental hygienists.
Outpatient Gastrointestinal (GI) Clinic	OUT:NONACUTE:CLINIC:GI	An outpatient setting for the diagnosis, evaluation, and treatment of conditions related to the gastrointestinal tract. Usually includes an endoscopy suite.

Outpatient Hematology/Oncology
Clinic

OUT:NONACUTE:CLINIC:HONC

An outpatient setting for the diagnosis, evaluation, and treatment of persons with hematologic and/or oncologic disorders. This may include chemotherapy or blood/blood products infusion services.

Outpatient Hemodialysis Clinic

OUT:NONACUTE:CLINIC:DIAL

An outpatient setting where chronic hemodialysis patients are evaluated and receive dialysis several times weekly.

Outpatient HIV Clinic

OUT:NONACUTE:CLINIC:HIV

An outpatient setting for the diagnosis, evaluation, and treatment of persons who are HIV positive or who have AIDS.

Outpatient Medical Clinic

OUT:NONACUTE:CLINIC:M

An outpatient setting for the diagnosis, evaluation and treatment of medical disorders.

Outpatient Rehabilitation Clinic

OUT:NONACUTE:CLINIC:REHAB

An outpatient setting where persons with injury or disability are evaluated and treated to resume activities of daily living, speech and language skills, and maximum physical function. This may include social and psychological evaluation and treatment.

Pain Clinic

OUT:NONACUTE:CLINIC:PAIN

An outpatient setting for the evaluation and treatment of persons with chronic or intractable pain.

Pediatric Behavioral Health Clinic	OUT:NONACUTE:CLINIC:BHV_PED	An outpatient setting for the evaluation and management of persons ≤18 years old with psychiatric or behavior disorders.
Pediatric Cardiology Center	OUT:NONACUTE:CLINIC:PED_C	An outpatient setting for the evaluation and management of persons ≤18 years old with cardiac disorders.
Pediatric Clinic	OUT:NONACUTE:CLINIC:PED	An outpatient setting for the evaluation and treatment of persons ≤18 years old.
Pediatric Dental Clinic	OUT:NONACUTE:CLINIC:DENT_PED	An outpatient setting that provides dental services, including preventive teeth cleaning, emergency treatment, and comprehensive oral care to persons ≤18 years old. This may be a private or group practice or a teaching facility for dentists and/or dental hygienists.
Pediatric Dermatology Clinic	OUT:NONACUTE:CLINIC:DERM_PED	An outpatient setting for the evaluation and management of persons ≤18 years old with dermatologic disorders.
Pediatric Diabetes/Endocrinology Clinic	OUT:NONACUTE:CLINIC:DIAB_PED	An outpatient setting for the evaluation and management of persons ≤18 years old with diabetes or other endocrine disorders.
Pediatric Gastrointestinal Clinic	OUT:NONACUTE:CLINIC:GI_PED	An outpatient setting for the evaluation and treatment of persons ≤18 years old with gastrointestinal disorders.

Pediatric Hematology/Oncology Clinic	OUT:NONACUTE:CLINIC:HONC_PED	An outpatient setting for the evaluation and treatment of persons ≤ 18 years old with cancer and/or blood disorders.
Pediatric Nephrology Clinic	OUT:NONACUTE:CLINIC:PGU_PED	An outpatient setting for the evaluation and treatment of persons ≤ 18 years old with disorders of the genitourinary tract.
Pediatric Orthopedic Clinic	OUT:NONACUTE:CLINIC:ORT_PED	An outpatient setting for the evaluation and treatment of persons ≤ 18 years old with fractures or other orthopedic disorders.
Pediatric Rheumatology Clinic	OUT:NONACUTE:CLINIC:RHEUM_PED	An outpatient setting for the evaluation and treatment of persons ≤ 18 years old with rheumatology disorders.
Pediatric Scoliosis Clinic	OUT:NONACUTE:CLINIC:SCOL_PED	An outpatient setting for the evaluation and treatment of persons ≤ 18 years old with scoliosis or other growth disorders of the spine.
Physical Therapy Clinic	OUT:NONACUTE:CLINIC:PT_REHAB	An outpatient setting where persons with injury or disability are helped to obtain maximum physical function.
Physician's Office	OUT:NONACUTE:CLINIC	A physician's office practice.
Podiatry Clinic	OUT:NONACUTE:CLINIC:POD	An outpatient setting for the evaluation and treatment of patients with conditions or disorders of the feet.

Prenatal Clinic	OUT:NONACUTE:CLINIC:PNATL	An outpatient setting for the evaluation and treatment of pregnant women.
Pulmonary Clinic	OUT:NONACUTE:CLINIC:PULM	An outpatient setting for the evaluation and treatment of persons with disorders of the respiratory tract.
Radiology (includes Nuclear Medicine)	OUT:NONACUTE:DIAG:RAD	An area where diagnostic radiologic studies are done on outpatients and/or inpatients.
Rheumatology Clinic	OUT:NONACUTE:CLINIC:RHEUM	An outpatient setting for the evaluation and treatment of persons with autoimmune disorders, primarily rheumatoid arthritis.
School or Prison Infirmary	OUT:NONACUTE:CLINIC:IFM	Area in a school or correctional facility that provides medical care to students/inmates. This area is not staffed or equipped for overnight stay patients.
Specimen Collection Area (Healthcare)	OUT:NA:LAB:SPEC	An area within a healthcare facility where procedures are performed to collect blood, tissue, and other specimens for diagnostic purposes.
Speech Therapy Clinic	OUT:NONACUTE:CLINIC:ST_REHAB	An outpatient setting for the evaluation and treatment of persons with brain injury to maximize their speech, swallow, and language functions.

Surgical Services Clinic

OUT:NONACUTE:CLINIC:S

An outpatient setting for the preoperative evaluation and the postoperative management of patients undergoing a surgical procedure.

Well Baby Clinic

OUT:NONACUTE:CLINIC:NURS

An outpatient setting for the examination and treatment of normal newborns.

Wound Center

OUT:NONACUTE:CLINIC:WND

An outpatient setting for the evaluation and treatment of persons with acute or chronic wounds.

Wound Ostomy Continence Clinic

OUT:NONACUTE:CLINIC:WND_OST_CONT

An outpatient area that provides acute and rehabilitative care for people with selective disorders of the gastrointestinal, genitourinary, and integumentary (skin) systems.

COMMUNITY LOCATIONS

Blood Collection (Blood Drive Campaign)

COMM:NONACUTE:CLINIC:BLOOD

A location not designed or equipped to perform healthcare functions (e.g., school gym or shopping mall) that has been set up specifically to collect donations of blood and blood products from the public.

Home Care

COMM:NONACUTE:HOME

A patient's home location where medical services including routine noninvasive and other invasive procedures (e.g., insertion of indwelling urinary catheter, insertion of IV line) are performed by healthcare workers and family members under the supervision of a licensed independent practitioner (e.g., MD, CNP,PA).

Home-based Hospice

COMM:NONACUTE:HOME:HSP

A patient's home location where end-of-life services are performed by healthcare workers, family members, and volunteers.

Specimen Collection Area
(Community)

COMM:NA:LAB:SPEC

A location not designed or equipped to perform healthcare functions (e.g., school gym or shopping mall) that has been set up specifically to collect body fluids for healthcare testing. Examples would be blood sugar or cholesterol screening clinics.

NON-PATIENT CARE LOCATIONS

Administrative Areas

NONPTC:NA:SUPPORT:ADMIN

Areas within a healthcare facility where administrative functions take place. No patient care takes place in these areas.

Assisted Living Area

NONPTC:NA:HOME

A location where persons live and have available to them housekeeping, meal preparation, transportation, and other non-medical services. Patient care is not done in this area.

Blood Bank

NONPTC:NA:LAB:BLOOD

An area within a healthcare facility that may collect, store, and distribute blood and blood products, and performs diagnostic tests on blood/components to determine compatibilities.

Central Sterile Supply

NONPTC:NA:SUPPORT:CSS

An area within a healthcare facility where durable medical equipment is cleaned/decontaminated, wrapped, sterilized, and stored in preparation for patient use.

Central Trash Area

NONPTC:NA:SUPPORT:TRASH

An area adjacent to a healthcare facility where biohazardous and non-biohazardous wastes are collected in preparation for transport to a landfill or incineration.

Clinical Chemistry

NONPTC:NA:LAB:CHEM

An area within a diagnostic laboratory that performs general clinical chemistry analysis (clinical biochemistry), endocrinology, therapeutic substance monitoring, toxicology, blood pH and blood gas analysis, urinalysis, and urine pregnancy testing.

Facility Grounds	NONPTC:NA:SUPPORT:GRNDS	Any outdoor area adjacent to a healthcare facility that belongs to the facility (e.g., sidewalks, parking ramps, lawns).
General Laboratory	NONPTC:NA:LAB	An area that encompasses all clinical divisions within a diagnostic laboratory.
Hematology	NONPTC:NA:LAB:H	An area within a diagnostic laboratory that determines the specific properties of blood (e.g., CBC, white blood count).
Histology/Surgical Pathology	NONPTC:NA:LAB:HIST_PATH	An area within a diagnostic laboratory that uses high-power microscopy to evaluate cells and tissues for the presence or absence of disease.
Housekeeping/Environmental Services	NONPTC:NA:SUPPORT:HSKP	An area within a healthcare facility where the activities of housekeeping/environmental services staff are coordinated and supplies are stored.
Laundry Room	NONPTC:NA:SUPPORT:LAUN	An area within a healthcare facility where laundry is sorted, washed, dried, and prepared for transport and use.
Microbiology	NONPTC:NA:LAB:MICRO	An area within a laboratory that performs diagnostic tests to determine the presence or absence of bacteria and their related properties.

Morgue/Autopsy Room	NONPTC:NA:LAB:PATH_MORG	An area within a facility that is used for the storage and/or postmortem examination of deceased persons.
Pharmacy	NONPTC:NA:SUPPORT:PHARM	An area within a healthcare facility where medications are prepared and labeled for patient use.
Physical Plant Operations Center	NONPTC:NA:SUPPORT:ENG	An area within a healthcare facility where construction, renovation, and maintenance staff activities and supplies are coordinated. This may also include areas of machinery and equipment.
Public Area in Facility	NONPTC:NA:SUPPORT:PUB	Any indoor area within a healthcare facility that is not used for patient care and that is available to the public (e.g, waiting rooms, cafeterias, hallways).
Serology Lab	NONPTC:NA:LAB:SER	An area within a diagnostic laboratory that performs blood tests to determine the presence or absence of certain diseases or the levels of immunity.
Virology Lab	NONPTC:NA:LAB:VIR	An area within a diagnostic laboratory that performs tests and/or culturing to determine the presence or absence of specific viruses.
